

Saurian Brandy

Dr. Leonard "Bones" McCoy often kept this handy as a "medicinal aid" while serving aboard the Constitution-class USS Enterprise. Though we cannot get it straight from the Saurians, we have come up with something that has a similar taste and effect.

Ingredients

1½ oz. Smirnoff Vanilla Twist vodka

1 oz. banana liqueur

½ oz. Godiva chocolate liqueur

Add vodka and banana liqueur to shaker with ice and shake gently, then pour into a martini glass. Pour the chocolate liqueur gently down the side of the glass so that it sinks to the bottom and forms a layer. Garnish with a maraschino cherry.
